

Japan CCS Forum 2024

第一部 / Part I 講演 5 / Session 5

Amir Aryana

Group Leader, Energy Resources

CSIRO

Amir is the Carbon Capture & Enhanced Productivity Leader at CSIRO Energy, based in Sydney. In this role, he leads the strategy and development of innovative technologies aimed at decarbonising Australian industries, focusing on assembling and deploying multidisciplinary research teams to key challenges that deliver innovative solutions to achieve net-zero emissions targets. Amir collaborates closely with researchers to build and foster strong partnerships with industry and governments to deliver impactful solutions. He has spearheaded several strategic initiatives that have led to the adoption and deployment of technologies both domestically and internationally. He refers to himself as a Engineer at heart but not in practice, with over 20 years of experience in the Energy sector.
