

Japan CCS Forum 2025

第二部 パネルディスカッション

パネリスト

Part 2 Panel Discussion

Panelist

Shunsuke Nakamura (Mr.)

Business Development Manager
CCUS & Subsurface Energy Business Unit
Sumitomo Corporation

Shunsuke is a Business Development Manager at Sumitomo Corporation, driving initiatives in Carbon Capture, Utilization, and Storage (CCUS) to advance global decarbonization efforts. With over a decade of experience in the upstream oil and gas sector, he managed a diverse portfolio of projects primarily in the North Sea and drove business development initiatives in both the North Sea and Southeast Asia, leveraging his technical expertise and commercial acumen. Today, Shunsuke focuses on the development of cross-border CCS projects that accelerate Japan's transition to a low-carbon future. His expertise spans subsurface technologies, energy transition strategies, and international project development. Shunsuke holds a Master of Engineering (M.Eng.), Geophysical Exploration from Waseda University.
